

# Inkjet Printable

## White and Silver

Inkjet Printable

### Key benefits

- Innovative inkjet layer offering excellent absorption and reduced ink costs
- Low color-to-color bleed and fast drying performance, ideal for automated duplication systems
- Excellent high resolution print quality due to smooth surface and reduced size of inkjet receptors
- Superior whiteness offering intensity and real depth to the colors
- Faultless handling and printing in all inkjet based publishers and duplicators

### Quality

White inkjet printable

Silver pearl inkjet printable

- Vibrant intense colors
- Excellent color contrast
- Smooth color gradients
- Clear, sharp small texts
- Photo-realistic quality printing
- Uniform edge to edge printing

# Inkjet Printable

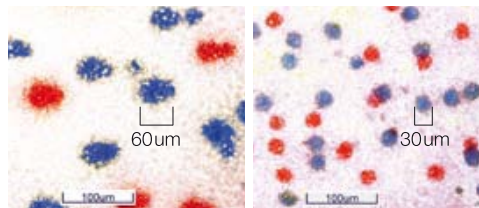

## Technical

### Full surface printing

Generic inkjet media      FalconMedia inkjet media  
Shade variation in the center      Uniform shade across the whole surface

### Ink dot size

Competitors inkjet media      FalconMedia inkjet media  
(Printed with same printer and settings)

FalconMedia smooth inkjet layer ensures 2x smaller ink dot size, offering highest resolution and excellent photo-quality compared to competition.
