**New items and promotions, Feb. 13, 2010**

**Resellers wanted – contact us now to be a Falcon reseller in your area!**

**Update, Blu-ray price reductions**

Big price reductions on 50GB DL discs and corporate-grade discs!  
Contact us for volume pricing.

Falcon is the top manufacturer of Blu-ray discs and we have the widest selection of blank BD-R, BD-RE, and 50GB double layer discs.

All Blu-ray products are available for fast import.

Our most popular Blu-ray disc has been the FalconMedia white inkjet 4X BD-R in a 25-pack cakebox (FMBDR4X539).

**Free transport on Smart White CD-Rs and DVD-Rs!**

Smart White discs are ideal for companies with a mix of inkjet and thermal printers. These discs work perfectly on Everest, Prism, and all inkjet printers. Free transport on CD-R FMC-066 and DVD-R FMD16SMRT061.

**Water repellent CD-R and DVD-R 50pk cakeboxes now in stock**

CD-R as low as \$0.35 per disc ( SKU FMC646 )

DVD-R as low as \$0.42 per disc ( SKU FMD644 )

**Wide sputtered CD-R now in stock**

These discs have a silver surface all the way to the center and are ideal for silkscreening. ( SKU FMC-501 )

**Exclusive – Diamond Smart White CD-Rs for inkjet and thermal printers!**

Diamond CD-Rs are pure silver on the bottom so they look like a real replicated disc. N.B. Diamond CD-Rs can have playback problems on some old CD players and some car players that are not calibrated for these discs..

This spreadsheet lists the entire Falcon product line. First a brief introduction to the Falcon products:

**FalconMedia™** 

FalconMedia Pro is the best blank media in the world. It is AAA grade media for professional use, where users demand flawless results and long archival life.

**FalconMedia™** CORPORATE

FalconMedia Corporate grade media is excellent quality media targeted at corporate users or price-sensitive buyers.

**FalconMedia™**

FalconMedia branded products are excellent products intended to build brand awareness.

**FalconMedia™** 

FalconMedia Pro Century products include a gold layer for extended archival life. Falcon has a unique technology called Gold EP which includes both a gold layer for long life, and a silver layer to ensure compatibility. With its innovative formulations, FTI has achieved an archival lifespan of more than 300 years for FalconMedia Pro Full Gold EP recordable CD media, and more than 100 years for FalconMedia Pro Gold EP recordable DVD media. A 24k gold reflective layer provides maximum resistance to degradation caused by environmental factors such as corrosion, a major cause of failure in standard media. Both solutions have been subjected to accelerated aging conditions, confirming the discs' archival life-spans.

## Ultra Hard Coat Anti-scratch protection

FTI's Ultra Hard Coat (UHC) anti-scratch protection is the most reliable solution to protect mission-critical data against potential disc surface contaminants and mishandling. Applied to the media's polycarbonate layer during the manufacturing process, UHC technology dramatically increases the disc's scratch resistance and also helps fend off other contaminants such as smudges from fingerprints. Because most spills and other contaminants cannot readily bind to the UHC surface, the disc easily wipes clean. Performance is not impacted, and the data is protected.

## ISO and Philips certification

Falcon Technologies has earned numerous international certifications including format conformance verifications from Philips, as well as ISO 9001 and ISO 14001 credentials. Every FTI product delivers Certified Swiss Quality (CSQ), ensuring unsurpassed performance and reliability.

## OEM and Private Label Manufacturing

Falcon is capable of fulfilling large OEM and private label orders. In fact Falcon is now making optical discs for many of the famous brand names. Amtech can also help you with small OEM orders needing custom silkscreening and assembly – this work is performed in Canada with ultra-fast turntimes.
