Matte cassettes have a completely flat print area. You can print the entire standard print area. Just mind the spool holes and recessed window in the center.

Please maintain our standard image size of 5”x 5” & 1000 dpi

**Standard print area:** Please make sure your artwork is a minimum of 6 pixels thick with 6 pixels of space between lines.

Please be sure your artwork bleeds a little outside of this area if full coverage is desired.

**COLOR 1:**
**COLOR 2:**
Do not merge your art into the template! It must be in its own layer. Artwork must be black regardless of selected pad print ink colour.

We recommend a minimum size 6 font to ensure legibility.
